Call or e-mail us to request an estimate. No job is too big or too small. We are insured for your protection. Visit us at [www.seasidearborists.com](http://www.seasidearborists.com) for more information.

## **Why should you prune your trees and shrubs?**

Pruning is essential in preserving the quality of trees and shrubs in your landscape because it:

Removes dead, diseased, or injured branches.

Improves the size and shape of your trees and shrubs.

Rejuvenates older plants for safety and convenience.
